About ERIEBANK

ERIEBANK first opened in 2005 under founding president David Zimmer in Erie, Pennsylvania. Within two years of being open, their full-service banking style and community-focused aesthetic set them apart from other banks with their focus on each customer, which are now trademarks at all locations. Now eighteen years later, the bank has twelve locations with plans for future growth in the Northeast Ohio market under President Wesley Gillespie.

ERIEBANK, a division of CNB Bank, is part of a \$6.0 billion bank that has been and will continue to be developed by local business and community leaders. The local decision-making provided by ERIEBANK offers a high level of dedication and service to the communities within northwest Pennsylvania and northeast Ohio.
